CAREER OBJECTIVE

Aspiring Full-Stack Java Developer with a strong foundation in Java, Spring Boot, React.js, and MySQL, backed by internship experience building REST APIs and microservices. Skilled in delivering end-to-end web applications, with working knowledge of AWS and Docker. Seeking a Software Developer role to apply strong problem-solving skills toward building scalable, impactful software solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python

Frontend: HTML, CSS, JavaScript, React.js

Backend: Spring Boot, REST APIs, JDBC, Microservices

Database: MySQL

Cloud: AWS (EC2, S3, IAM, VPC, RDS, DynamoDB)

Tools: Git, GitHub, Docker, Postman, Eclipse, VS Code

PROJECTS

AI-Powered Full Stack E-Commerce Platform

Technologies: Java, Spring Boot, React.js, MySQL, Spring Security, REST APIs, AI Integration

- Developing a full-stack e-commerce application with product browsing, search, shopping cart, and order management.
- Implementing secure authentication and role-based access control for Admin and Customers using Spring Security.
- Building REST APIs using Spring Boot and managing application data with MySQL.
- Integrating an AI-powered recommendation system to provide personalized product suggestions based on user interests and shopping history.

Food Delivery Application

Technologies: Java, Spring Boot, React.js, MySQL, Spring Security, REST APIs

- Developing a full-stack food delivery application that allows customers to browse restaurants, explore menus, and place food orders.
- Implementing user authentication, shopping cart, order management, and order history.
- Building REST APIs using Spring Boot and integrating them with a React.js frontend.
- Developing an admin dashboard to manage restaurants, food items, customer orders, and order status.

Expense Tracker

Technologies: Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application to manage and track daily income and expenses.
- Implemented user registration, login, and transaction management features.
- Created a dashboard to display total income, expenses, balance, and transaction history.
- Integrated Spring Boot with MySQL to store and manage financial records.

INTERNSHIP EXPERIENCE

Cloud-Native Java Microservices Engineer Intern — Robomanthan Pvt. Ltd. *Feb 2026 – Jun 2026*

- Completed a 5-month internship in Java full-stack development using Spring Boot and Microservices.
- Developed REST APIs and worked with Docker, Spring Cloud, MySQL, and CI/CD workflows.

AWS Solutions Architect Associate Trainee — AWS Academy Cloud Foundations *May 2024 – Jun 2024*

- Learned AWS cloud services including EC2, S3, IAM, VPC, RDS, and DynamoDB.
- Understood cloud architecture, security, networking, and deployment best practices.

EDUCATION

Government Engineering College, Bidar, Karnataka *2022 – 2026*

Bachelor of Engineering in Artificial Intelligence and Data Science — CGPA: 7.0

Basavateerth VS PU College, Hallikhed-B, Karnataka *2020 – 2022*

Karnataka Pre-University Board — 86.66%

Dr. C. P. Gurukul High School, Humnabad, Karnataka *2020*

Karnataka Secondary Education Board — 88.96%

CERTIFICATES

AWS Academy Graduate – AWS Academy Cloud Foundations, (Issued by AWS Academy) 2024
